DECLARATION OF RHONDA TRACY

Rhonda Tracy declares as follows:

1. I am the inventor and owner of the above-captioned patent application. I understand that the PTO Examiner has rejected my above-captioned application on the basis, in whole or in part, of Foreman U.S. Patent 4,816,025 filed on October 30, 1987 as a continuation of an application filed October 10, 1986.

2. I conceived my invention prior to October 10, 1986. As evidence thereof, I enclose herewith a copy of a disclosure document 166,418, which was dated and notarized on September 2, 1986. This document was filed with the PTO on March 13, 1987. I cannot explain why the filing date is months later than the execution date of the document because on information and belief, I personally mailed the disclosure document to the PTO before

the end of October, 1986. I was extremely surprised when I received an acknowledgment from the PTO so many months later.

3. I created a model of my invention before my first meeting with my first patent counsel, Roger Van Epps, and I left my prototype with him at the first meeting.

4. On information and belief, the date when I first met with patent counsel (Mr. Van Epps) was October 3, 1986. I created my prototype prior to October 3, 1986.

5. As a first order of business, Mr. Van Epps performed a patentability search. This required several weeks.

6. After completing the patentability search, Mr. Van Epps, on information and belief, gave my prototype diaper to a patent draftsman to prepare patent drawings.

7. Mr. Van Epps then prepared a patent application for aspects of my invention and forwarded it to me for review and signature. I signed a declaration and power of attorney on March 2, 1987, as shown by the enclosed copy. The document bears an "attorney docket number" of "1196-1P86", which on information and belief, means that the attorney file was opened in 1986 as a patent file.

8. Mr. Van Epps submitted my patent application to the PTO where it received a serial number of 07/093,681 filed September 8, 1987.

9. On information and belief, the present application claims back to that 1987 application.

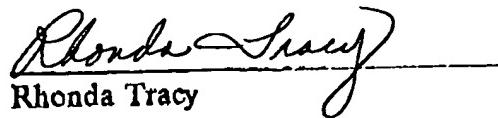

10. I acknowledge that willful false statements and the like are punishable by fine or imprisonment or both under Title 18 USC 1001 and may jeopardize the validity of the patent application or any patent issuing thereon. The statements in this declaration that are

(Taddeucci) Tracy, on this day has

Come up with the idea on how to improve the disposable diaper. This improvement involves putting cotton around the waistline and leg lines of the diaper. Just a very fine, small layer of cotton which would be very similar, but not exact, to that of a gauze pad or inside of a gauze pad.

This lining is different by the way it goes from inside to out around the legs & waist.

This lining will prevent scratches & abrasions often left around the legs & waistline on babies, due to the hard, stiff plastic of regular disposable diapers.

I'll call these "Confies." This idea is mine & mine alone, as witnessed on this 2nd day of September, 1986.
